

## INCOSE UK launches eBooks

INCOSE UK are pleased to announce that their books are now available to purchase in eBook format on the [INCOSE UK website](#).

The eBook launch includes the best-selling ‘Don’t Panic!’ series. The first book of the series, ‘Don’t Panic! The Absolute Beginner’s Guide to Model-Based Systems Engineering’, was launched in 2017 as a paperback book. Since then, another three books have been added to the series. Also available in eBook format is the first book in the Advanced Applications in Systems Engineering collection: ‘Implementing MBSE Into Your Business – The Trinity Approach’.

INCOSE UK’s Technical Director, Jon Holt said:

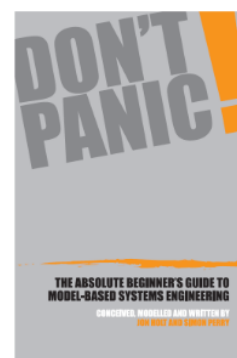

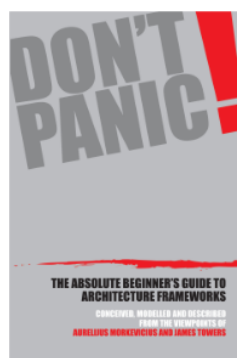

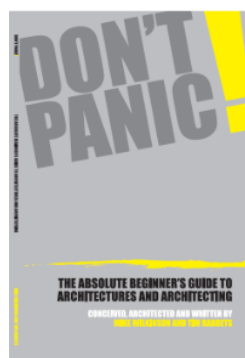

*“This is an important milestone for INCOSE UK as it opens up our Technical Publications to the global market and contributes to our wider mission to promote Systems Engineering best practice across the world”*

The books now available in eBook format are:

- ‘Implementing MBSE Into Your Business – The Trinity Approach’
- ‘Don’t Panic! The Absolute Beginners Guide to Model-Based Systems Engineering’
- ‘Don’t Panic! The Absolute Beginners Guide to Managing Interfaces’
- ‘Don’t Panic! The Absolute Beginners Guide to Architecture Frameworks’
- ‘Don’t Panic! The Absolute Beginners Guide to Architecture and Architecting’

eBook and Paperback editions of the books are available to purchase here:

### INCOSE UK

INCOSE UK is a Professional Engineering Institution licensed by the Engineering Council. INCOSE UK acts as the UK Chapter of the International Council on Systems Engineering (INCOSE), a not-for-profit membership organisation founded to develop and disseminate the interdisciplinary principles and practices that enable the realisation of successful systems. INCOSE UK is administered by INCOSE UK Ltd.

INCOSE UK holds an annual conference and a set of training events each year; has active regional, working and special interest groups; and publishes a variety of books, guides and other products tailored for UK members. Despite its focus on UK-specific needs, INCOSE UK attracts members from all around the globe. The 'flavour' of Systems Engineering most prevalent in the UK has developed into an open and inclusive practice that facilitates the application of Systems Thinking and Systems Engineering principles in domains outside of the traditional domains of defence and aerospace. In recent years, the membership of INCOSE UK has widened significantly from its roots, expanding to include domains such as: automotive, rail, energy, civil engineering, space, medicine, and security.
