

Annual Systems Engineering Conference (ASEC)2019

Register Now for the Premier Systems Engineering Conference in the UK.

Delegates can now register for the **Annual Systems Engineering Conference 2019** (ASEC 2019) by clicking [here](#).

ASEC 2019 will take place 19-20 November 2019 at the Royal Armouries Museum in Leeds. This year INCOSE UK will be celebrating the theme “**The Future of Systems Engineering**”.

This two-day event has keynote addresses on both days from leaders in the discipline of Systems Engineering, a diverse selection of speakers and topics all focused on Systems Engineering, the option of attending half day tutorials, and an exhibition area which includes the annual poster competition.

Professor Jon Holt, Technical Director of INCOSE UK said “*The quality of submissions for both papers and tutorials in this, INCOSE UK’s 25th anniversary, has been high. As a result of this the programme we are able to offer is excellent. We’re looking forward to a diverse selection of speakers and topics all focused on Systems Engineering.*”

Kirsty Akroyd-Wallis, President of INCOSE UK said “*There is something for everyone, with elements of the programme for those new to the discipline as well as the latest experiences, knowledge and practices shared by the INCOSE UK Community. We have some great topics that will create debate and challenge ideas, stimulating the discussions that will advance Systems Engineering*”

Our event this year not only celebrates our 10th annual conference but also INCOSE UK’s 25th anniversary: The INCOSE UK Silver Jubilee.

The ASEC 2019 event hashtag is **#ASEC2019UK** and can be used and followed across Twitter and LinkedIn.

Notes to the editor:

INCOSE UK Ltd

INCOSE UK Ltd is the UK Chapter of the International Council on Systems Engineering (INCOSE), with over 1,000 individual and over 30 corporate members, exists primarily to serve UK-specific needs and is a key chapter within INCOSE. It has strong links with other UK institutions and plays a prominent role in both the domestic and the international scenes. It holds one conference and one training day each year, has active regional, working and special interest groups and publishes a variety of books, guides and other products tailored for UK members. Despite its focus on UK-specific needs, the UK Chapter attracts members from territories around the globe. The 'flavour' of Systems Engineering most prevalent in the UK has developed into an open and inclusive practice that facilitates the application of Systems Thinking and Systems Engineering principles in domains outside of the traditional domains of defence and aerospace. In recent years, the membership of INCOSE UK has widened significantly from its roots, expanding to include domains such as: automotive, rail, energy, civil engineering, space, medicine, and security. For more information, please visit www.incoseonline.org.uk.

Annual Systems Engineering Conference (ASEC)

The Annual Systems Engineering Conference (ASEC) is INCOSE UK's annual flagship event that brings together an extensive range of professionals from an array of backgrounds, with the common interest of building upon their Systems Engineering knowledge and sharing ideas with their peers. INCOSE UK hosted its first annual conference in 2010, with the aim of creating the premium annual Systems Engineering conference in the UK. Now in its 10th year, the ASEC has grown to become the UK's foremost Systems Engineering conference.
