

Annual Systems Engineering Conference (ASEC) 2023 Save the date

INCOSE UK is pleased to announce that the Annual Systems Engineering Conference (ASEC) 2023 will be held at **Spaces at The Spine, Liverpool on 21st and 22nd November 2023.**

The UK's leading Systems Engineering Conference: ASEC, is a two-day event, attracting an extensive range of industry, government, and academia professionals. INCOSE UK hosted its first ASEC in 2010 and, now in its 14th year, the conference has developed to include technical presentations on contemporary Systems Engineering theory and practice, tutorials run by leading Systems Engineering Professionals, an exhibition of Systems Engineering organisations presenting their products and services, the Early Careers Forum, Professional Development Surgery, Future of Systems Engineering Session and Group Meetings.

INCOSE UK Technical Director Jon Holt said *"We are really looking forward to taking ASEC delegates to a new venue, Spaces at The Spine, which is housed within The Spine in the Knowledge Quarter of Liverpool. As attendance at the conference has grown, we have had to look for venues that can handle our growing numbers and this intelligent building not only allows for growth in both attendance numbers and capabilities, but it also fits with this year's theme "Embracing the New Opportunities"*.

The theme for ASEC 2023 is "Embracing the New Opportunities". With this in mind, we intend to explore the following subthemes:

- Building towards a Sustainable Future
- Strengthening the Systems Engineering Pipeline
- Systems Engineering the Bigger Picture
- Developing the Systems Engineering Brand
- Systems Engineering Specialism: Techniques and Practices

INCOSE UK has invited individuals and organisations to submit papers and tutorials and are currently reviewing the submissions. Delegate information, along with sponsorship and exhibitor opportunities can be found on the ASEC 2023 website – www.asec2023.org.uk. The program will be

Annual Systems Engineering Conference (ASEC) 2023 Save the date

tailored for UK members. Despite its focus on UK-specific needs, INCOSE UK attracts members from all around the globe. The 'flavour' of Systems Engineering most prevalent in the UK has developed into an open and inclusive practice that facilitates the application of Systems Thinking and Systems Engineering principles in domains outside of the traditional domains of defence and aerospace. In recent years, the membership of INCOSE UK has widened significantly from its roots, expanding to include domains such as: automotive, rail, energy, civil engineering, space, medicine, and security. Annual Systems Engineering Conference (ASEC)

The Annual Systems Engineering Conference (ASEC) is INCOSE UK's annual flagship event that brings together an extensive range of professionals from an array of backgrounds, with the common interest of building upon their Systems Engineering knowledge and sharing ideas with their peers. INCOSE UK hosted its first annual conference in 2010, with the aim of creating the premium annual Systems Engineering conference in the UK. Now in its 14th year, the ASEC has grown to become the UK's foremost Systems Engineering conference.

Spaces at The Spine

Spaces at The Spine is the new destination for events in Liverpool, offering world-class dynamic spaces for conferences, workshops and dining. The venue is housed within one of the healthiest buildings in the UK, The Spine, which was recently awarded BREEAM Outstanding, the highest sustainability rating attainable in the UK. It is also currently being assessed to become WELL Certified at the Core Platinum Level. The WELL Building Standard is the premier standard for buildings seeking to implement features supporting and advancing human health. Spaces at The Spine has ergonomic, modern and intelligent spaces showcasing the best-in-class building connectivity and agile audio-visual systems and offers a flexible design and layout.
