

Press Release

SyntheSys becomes an INCOSE UK Endorsed Training Provider

INCOSE UK are pleased to announce that SyntheSys Technologies has become the 3rd company to successfully go through the assessment process and become an INCOSE UK Endorsed Training Provider.

The scheme allows organisations who provide professional Systems Engineering-related training courses to apply and be assessed in order to achieve the status of 'INCOSE UK Endorsed Training Provider'.

The endorsement for SyntheSys (when delivered by Mark Williamson) extends to the following Standard Courses:

- Systems Engineering Foundation
- INCOSE Systems Engineering Professional Training Course: Prepare to Pass the SEP Examination
- Requirements Writing
- The endorsement also extends to Bespoke Courses

Mark Williamson, Managing Director of SyntheSys Technologies said *"As a company who has a clear focus on furthering the knowledge of Systems Engineering, it made complete sense to apply to become an INCOSE UK Endorsed Training Provider and we are looking forward to offering our training course through the Endorsed Training Provider Training Events."*

Ian Gibson President of INCOSE UK said *"I am pleased to see another company take up the opportunity of becoming an INCOSE UK Endorsed Training Provider. This scheme is something that we have wanted to do for a long time, as it provides individuals and organisations with a route to obtaining high quality training from reputable organisations which have been assessed as suitable providers of Systems Engineering training."*

The first event will take place 4th – 6th May, with courses provided by Scarecrow Consultants Ltd and SyntheSys Technologies. Booking is now available via the [INCOSE UK website](#).

More information about becoming an Endorsed Training Provider can be found [here](#).

INCOSE UK

INCOSE UK is a Professional Engineering Institution licensed by the Engineering Council. INCOSE UK acts as the UK Chapter of the International Council on Systems Engineering (INCOSE), a not-for-profit membership organisation founded to develop and disseminate the interdisciplinary principles and practices that enable the realisation of successful systems. INCOSE UK is administered by INCOSE UK Ltd.

INCOSE UK holds an annual conference and a set of training events each year; has active regional, working and special interest groups; and publishes a variety of books, guides and other products tailored for UK members. Despite its focus on UK-specific needs, INCOSE UK attracts members from all around the globe. The 'flavour' of Systems Engineering most prevalent in the UK has developed into an open and inclusive practice that facilitates the application of Systems Thinking and Systems Engineering principles in domains outside of the traditional domains of defence and aerospace. In recent years, the membership of INCOSE UK has widened significantly from its roots, expanding to include domains such as: automotive, rail, energy, civil engineering, space, medicine, and security. For more information, please visit www.incoseuk.org.

SyntheSys Technologies

[SyntheSys Technologies](#) established in 1988, in North Yorkshire, England, provide high-quality, cost-effective information Systems Engineering products and services to governments and industry all around the world.
