

Press Release

Annual Systems Engineering Conference (ASEC) 2022 – Save the Date

INCOSE UK are pleased to announce that the Annual Systems Engineering Conference (ASEC) 2022 will be held at The Crowne Plaza Hotel, Newcastle on 22 and 23 November 2022.

The UK's leading Systems Engineering Conference, ASEC, is a two-day event, attracting an extensive range of professionals from industry, government and academia. INCOSE UK first hosted ASEC in 2010 and, now in its 13th year, the conference has developed to include technical presentations on contemporary Systems Engineering theory and practice, tutorials run by leading Systems Engineering Professionals, an exhibition of Systems Engineering organisations presenting their products and services and a systems research showcase.

The theme for ASEC 2022 is “Building towards a Brighter Future” With this in mind, we intend to explore the following subthemes:

- Exploiting change and transformation
- Moving the Systems Engineering profession forward
- Developing professionals for the future
- Embedding a systems approach in the UK

INCOSE UK Technical Director Jon Holt said “We are really looking forward to holding ASEC in the North East of England. This will be our 2nd face-to-face conference since the start of the pandemic and we thought that “Building towards a Brighter Future” would be a fitting theme for 2022.”

INCOSE UK have invited individuals and organisations to submit papers and tutorials and the formal review process is now underway. ASEC includes an exhibition hall and offers a range of sponsorship opportunities. Information about how to exhibit and sponsor the event can be accessed via the ASEC 2022 website – asec2022.org.uk. To keep up with the latest information follow #ASEC2021UK on Twitter and LinkedIn.

INCOSE UK

INCOSE UK is a Professional Engineering Institution licensed by the Engineering Council. INCOSE UK acts as the UK Chapter of the International Council on Systems Engineering (INCOSE), a not-for-profit membership organisation founded to develop and disseminate the interdisciplinary principles and practices that enable the realisation of successful systems. INCOSE UK is administered by INCOSE UK Ltd.

INCOSE UK holds an annual conference and a set of training events each year; has active regional, working and special interest groups; and publishes a variety of books, guides and other products tailored for UK members. Despite its focus on UK-specific needs, INCOSE UK attracts members from all around the globe. The 'flavour' of Systems Engineering most prevalent in the UK has developed into an open and inclusive practice that facilitates the application of Systems Thinking and Systems Engineering principles in domains outside the traditional domains of defence and aerospace. In recent years, the membership of INCOSE UK has widened significantly from its roots, expanding to include domains such as: automotive, rail, energy, civil engineering, space, medicine, and security. For more information, please visit www.incoseuk.org.

Annual Systems Engineering Conference (ASEC)

The Annual Systems Engineering Conference (ASEC) is INCOSE UK's annual flagship event that brings together an extensive range of professionals from an array of backgrounds, with the common interest of building upon their Systems Engineering knowledge and sharing ideas with their peers. INCOSE UK hosted its first annual conference in 2010, with the aim of creating the premium annual Systems Engineering conference in the UK. Now in its 13th year, the ASEC has grown to become the UK's foremost Systems Engineering conference.
