

INCOSE UKAB Membership Benefits

Membership of the INCOSE UK Advisory Board provides direct access into the UK's premier Systems Engineering organisation.

INCOSE UK is the professional body through which systems engineers evolve and share knowledge about Systems Engineering, elevate the Systems Engineering discipline, develop, accredit and certify Systems Engineering professionals, and influence standards, government policies, and university programmes.

Join the UK Advisory Board as a member alongside more than 35 other organisations; enable your organisation to harness the business benefits of engaging with INCOSE UK.

“Research indicates that effective use of Systems Engineering can save over 20% of the project budget.”

NDIA studies 2008 and 2012 - Eric Honour

INCOSE UK Advisory Board Membership: Summary Of Key Benefits

Access to the UK’s premier Systems Engineering Network

- Access to a network of Systems Engineering good practice, documents, knowledge, Working Groups, publications, webinars and industry practitioners; all of which can accelerate your organisation’s application of Systems Engineering (and in turn allow your projects to realise up to 20% budget savings)
- Through UKAB and INCOSE UK engagement, keep pace with trends in Systems Engineering

Education and Development

- Making a visible commitment to Systems Engineering; demonstrating to employees, customers and peers that Systems Engineering is valued within the organisation
- Promote and enable Continuing Professional Development for Systems Engineers; link employees with INCOSE UK Working Groups and Local Chapter events; as such this provides access to ‘free’ CPD activity
- Shape the ‘voice of industry’ and influence the direction of INCOSE UK’s Academic endeavours to ensure there is a continued and sufficient supply of suitably qualified, professional and experienced Systems Engineers

Recognition as a ‘leader’ in Systems Engineering through association with INCOSE UK.

- Becoming part of the Systems Engineering network with similar organisations committed to Systems Engineering
- Increased organisation profile with the Systems Engineering and wider communities
- Participate in UKAB meetings where your organisation can influence the agenda and priorities of the INCOSE UK Council, who in turn direct INCOSE UK technical and academic endeavours
- Contributing to the evolution of the Systems Engineering good practice, knowledge, methodologies, standards and documents
- Reputational and customer satisfaction benefits from application of Systems Engineering

Exclusive Marketing Opportunities

- Exclusive stand discounts at INCOSE UK events including the Annual UK Systems Engineering conference (ASEC)
- UKAB membership guarantees your organisation’s logo will appear on select INCOSE UK publications and the UKAB membership display at INCOSE UK events
- Advertise vacancies directly into the Systems Engineering practitioner community

INCOSE UK Publications and INCOSE UK Services

- Free copying and distribution rights to all INCOSE UK event proceedings and Working Group products within the organisation; including the INCOSE UK Competency Framework
- Receive copies of INCOSE UK publications for distribution to staff (Preview, Z Guides, Ω Guides)

Join the INCOSE UK Advisory Board and realise the organisational benefits of engaging with the professional body for Systems Engineering. For more information about UKAB Membership please contact the [INCOSE UK Secretariat](#).
